SUMMARY

Experienced software developer with a strong background in React JS, Next JS, MongoDB, Amazon Web Services, REST APIs, TypeScript, Express, and Node. I have a proven track record of delivering high-quality, scalable, and user-friendly software solutions. My experience working with agile methodologies like Scrum and Kanban has allowed me to effectively collaborate with cross-functional teams, handle multiple projects, and meet tight deadlines.

PROFESSIONAL EXPERIENCE

Front End Web Developer

Quick Organics (Start Up), Remote | July 2022-February 2023

- Designed, developed and maintained high-performance web applications using JavaScript, Node, Plasmic, and ReactJS.
- Collaborated with cross-functional teams to define, design, and launch new features.
- Utilized Agile methodologies to deliver projects on time.
- Refactored the existing code base to improve performance and tech stack utilized.
- Performed quality assurance testing for React components.

Software Developer

Syllogistic Health, Remote | February 2019- July 2022

- Developed and implemented RESTful APIs to integrate in the healthcare records web application.
- Refactored the front-end UI and implemented React component base structure.
- Implemented automated testing and continuous integration to improve software quality and efficiency.
- Worked closely with stakeholders to gather requirements and deliver customer-focused solutions.

Web Developer

Freelance, Phoenix, AZ | March 2017- January 2019

- Created over 60 static websites for local clients across the United States.
- Built single page applications using React JS.
- Managed hosting and maintenance for all clients within my portfolio.
- Maintained a book of business of 70 clients.
